

Extra curricular

Manley Park is delighted to be able to offer a wide range of extracurricular activities to help our pupils develop their talents and interests, providing them with new skills and abilities. We know that participation in clubs boosts confidence and extends social networks.

Our childrens' social lives are as important to their development as their academic lives, and we know that pupils who participate in activities learn how to relate better to each other and form a sense of commitment to whatever they are involved in - as well as having great fun! We hope that introducing our children to new sports, hobbies and experiences will help to ignite a passion that will continue into their adult lives whilst learning the skills of teamwork, negotiation, caring for our environment and problem solving.

We are committed to providing a wide range of clubs to meet the interests of our pupils, utilising our staff, parent and wider community talents and strengths.
