Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has 'a physical or mental impairment' that has a 'substantial' and 'long-Term' adverse effect on his or her ability to undertake normal day-to-day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-Term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-Term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

Schools are required under the Equality Act 2010 to have an accessibility plan.

Aims

We are committed to all learners being inspired to achieve academic success. We aim to provide an education and environment, which supports and enriches the lives of all our children, enabling them to be the best that they can be. We strive to nurture all individuals on their unique journeys by providing a welcoming, safe and stimulating learning environment. Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

The school's six values permeate all that we do: **RESPECT, RESPONSIBILITY, PATIENCE, UNDERSTANDING, COMPASSION and POSITIVITY.**

A social model for disability runs through the heart of the school's accessibility plan because we believe that it is not people's conditions or impairments that disable them but rather it is the environment or society within which people find themselves, that does not accommodate difference and creates barriers. This accessibility plan aims to remove such barriers and in the process establish a holistically accessible school. At Manley Park, we are proud of our reputation for being a welcoming school, which embraces diversity. This plan seeks to ensure that everyone who comes to the school, will feel a part of that.

The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Monitoring arrangements

This document will be reviewed as a minimum every 3 years, but may be reviewed and updated more frequently if necessary.

The Accessibility Plan group (SENDSCO, HT, and SBM) will meet annually to update on progress and report to the school's governing body.

It will be approved by the school's governing body.

Further information

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

This plan supports Manchester Local Authority's 'Our Manchester Disability Plan (2017).'

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, our complaints procedure sets out how you can raise these concerns.
